In Touch, On Time, & Above Target

*Winning with your
CIBC Mortgage Specialist Teams*

Think portable and productive and you're looking at proven sales power according to these members of Realty Rewards PLUS. They are some of the recent recipients of notebook computers and other 'productivity boosters' from their CIBC Mortgage Specialists.

Between client calls, open houses, and listing checks, notebook computers can be career boosters for a Realtor. From Vancouver to Halifax, real estate professionals are becoming even more successful by leveraging technology to stay in touch, on time, and above target.

Enter Ed Mateo, a success story from Port Perry, Ontario, whose CIBC Mortgage Specialist, Michelle Brown, recently presented him with an IBM

ThinkPad Computer thanks to CIBC Realty Rewards PLUS. "The virtual office has meant I'm more organized and more productive. It's night and day", reports Mateo. "Being plugged in impresses the vendors and buyers too!" And if Mateo's record is any indicator, powerful presentations translate into more sold signs on the green lawns of Port Perry.
